SOIL AND VINEYARD

Sustainable agriculture vineyards based on respect. Wine from a selection of the sandiest plots in the area of Alborea, Cilanco and Casas Ibañez. Average age of the vines 30 years old. Always upland, without irrigation and bush vines.

WINEMAKING

It's a traditional and low intervention artisanal production. Manual harvest allows selection of clusters in field and with refrigerated transport until the grape reaches the winery. The fermentation is handled in small tanks of 50 HL with a prior maceration of 48 hours at 8°C. Malolactic fermentation is held in stainless steel tank and afterwards the wine is aged during 4 months with its lees in tinajas. Finally it's slightly filtered and bottled. It's an elaboration without fining agents neither cold stabilization; sediments can appear in the bottle.

WHY GRATIAS?

...gratias is born as a gratitude to all these people who have helped us in our lives: family, friends, masters, from whom we keep highly valuable memories and have helped us to make our dream come true.

ETHICAL WINE

For us it means the wine which is cultivated, made and sold from the respect, honesty, happiness and hope of all those people who work with us and

those who will drink it.

We develop a responsible project, conscious and respectful with society and the environment.

WHY GOT?

Got is a valencian language word that means glass. Since years ago the wine is been always part of our Mediterranean diet and there was always a glass of wine on the table during the meals. It's our way to restore ancient traditions.

TASTING AND GASTRONOMY

Tasting: Red cherry with purple border. Intense nose to red cherries, lactic aromas and earthy memories. Tasty, fruity and fresh. Gentle gulp with original flavours of its aging in tinaja. Gastronomy: pasta, pizza, barbecues, paella valenciana, to enjoy reading.
