

Bianco Provincia di Pavia Indicazione Geografica Tipica

The grapes come from the only **CORTESE** vineyard on our estate which is managed according to environmentally friendly agricultural practices, skipping any use of pesticides and herbicides.

The only treatments performed are based on sulfur and copper, depending on needs. In the cellar our approach is hands-free, no manipulation, no additives.

The grapes are harvested by hand in small boxes in the first ten days of September. After a week's maceration on the skins in wooden vats, the wine continues aging in amphora and tonneaux for ten months before bottling. Unfined, unfiltered, and unaltered.

This is an artisanal wine and can shed some sediment
